EDUCATION

RAJALAKSHMI ENGINEERING COLLEGE
BACHELOR OF ENGINEERING IN COMPUTER SCIENCE
2022 - 2026
Current CGPA: 7.82

SHREE NIKETAN MATRICULATION HIGHER SECONDARY SCHOOL
SSLC
2019-2020
Aggregated Percentage: 92.20

SHREE NIKETAN MATRICULATION HIGHER SECONDARY SCHOOL
HSC
2020-2022
Aggregated Percentage: 94.5

ACHIEVEMENTS

- 1st prize in Paper Presentation at National Level Techfest
- 1st prize in Mind Wars at National Level Technical Symposium
- Attended Unfold 2024 Asia's Largest Blockchain Hackathon

CERTIFICATIONS

- Oracle Certified Foundations Associate
- Python Programming and Data Exploration at Sudharsanam IT Academy
- Certificate of Excellence on Power BI for Data Analytics

INTERNSHIP COMPLETIONS

- Intern at United Parcel Service

ABOUT ME

As a pre-final year Computer Science and Engineering student, I have engineered and implemented innovative data science and machine learning solutions. Developed and optimized innovative solutions, and delivered results that surpassed expectations.

SKILLS

- Programming Languages: C, C++, Java, Python
- Development Tools: Visual Studio Code
- Web Development: HTML, CSS, JavaScript
- Database Management: SQL, MySQL
- Operating Systems: Windows, Linux
- Version Control: Git, GitHub

PROJECTS

BOX RECOMMENDATION SYSTEM:

- Developed a Box Recommendation Service using ML and YOLOv8 for packaging based on image analysis.
- Enhanced logistics with a Flask backend enabling real-time AI-driven decisions.

AI CROWD MANAGEMENT SYSTEM :

- The project uses AI for real-time crowd monitoring, predictive analytics, and efficient resource allocation to enhance safety and visitor experience.
- It provides data-driven insights and simulations to anticipate issues, enabling proactive decision-making and improved event management.

ETERNAL TIME CAPSULE:

- Built the Time Capsule Vault for scheduling and preserving messages, files, and media, ensuring future accessibility.
- Added flexible capsule types and a dashboard with advanced navigation and group sharing options.

DATA DOWNLOAD DUPLICATION ALERT SYSTEM:

- Developed the Data Download Duplication Alert System by implementing hashing algorithms and network analysis to detect redundant downloads.
- Enhanced bandwidth efficiency and institutional data management through network analysis.
